## Is Oil the future?

Lars K.

<b>Course of Study:</b>	Medieninformatik
<b>Examiner:</b>	Prof. Dr. Uwe Fessor
<b>Supervisor:</b>	Dipl.-Inf. Roman Tiker, Dipl.-Inf. Laura Stern, Otto Normalverbraucher, M.Sc.
<b>Commenced:</b>	July 5, 2018
<b>Completed:</b>	January 5, 2019

## **Abstract**

... Short summary of the thesis ...

# Contents

<b>1</b>	<b>Introduction</b>	<b>15</b>
<b>2</b>	<b>Chapter Two</b>	<b>17</b>
<b>3</b>	<b>Heading on level 0 (chapter)</b>	<b>19</b>
3.1	Heading on level 1 (section) . . . . .	19
3.2	Lists . . . . .	20
<b>4</b>	<b>Conclusion and Outlook</b>	<b>23</b>

## List of Figures

## List of Tables

## List of Listings

## List of Algorithms

# 1 Introduction

This thesis starts with Chapter 2.

## **2 Chapter Two**

## 3 Heading on level 0 (chapter)

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place.  $\sin^2(\alpha) + \cos^2(\beta) = 1$ . If you read this text, you will get no information  $E = mc^2$ . Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look.  $\sqrt[n]{a} \cdot \sqrt[n]{b} = \sqrt[n]{ab}$ . This text should contain all letters of the alphabet and it should be written in of the original language.  $\frac{\sqrt[n]{a}}{\sqrt[n]{b}} = \sqrt[n]{\frac{a}{b}}$ . There is no need for special contents, but the length of words should match the language.  $a \sqrt[n]{b} = \sqrt[n]{a^n b}$ .

### 3.1 Heading on level 1 (section)

Hello, here is some text without a meaning.  $d\Omega = \sin \vartheta d\vartheta d\varphi$ . This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look.  $\sin^2(\alpha) + \cos^2(\beta) = 1$ . This text should contain all letters of the alphabet and it should be written in of the original language  $E = mc^2$ . There is no need for special contents, but the length of words should match the language.  $\sqrt[n]{a} \cdot \sqrt[n]{b} = \sqrt[n]{ab}$ .

#### 3.1.1 Heading on level 2 (subsection)

Hello, here is some text without a meaning.  $\frac{\sqrt[n]{a}}{\sqrt[n]{b}} = \sqrt[n]{\frac{a}{b}}$ . This text should show what a printed text will look like at this place.  $a \sqrt[n]{b} = \sqrt[n]{a^n b}$ . If you read this text, you will get no information.  $d\Omega = \sin \vartheta d\vartheta d\varphi$ . Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special contents, but the length of words should match the language.  $\sin^2(\alpha) + \cos^2(\beta) = 1$ .

#### Heading on level 3 (subsubsection)

Hello, here is some text without a meaning  $E = mc^2$ . This text should show what a printed text will look like at this place.  $\sqrt[n]{a} \cdot \sqrt[n]{b} = \sqrt[n]{ab}$ . If you read this text, you will get no information.  $\frac{\sqrt[n]{a}}{\sqrt[n]{b}} = \sqrt[n]{\frac{a}{b}}$ . Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look.  $a \sqrt[n]{b} = \sqrt[n]{a^n b}$ . This text should contain all letters of the alphabet and it should be written in of the original language.  $d\Omega = \sin \vartheta d\vartheta d\varphi$ . There is no need for special contents, but the length of words should match the language.

**Heading on level 4 (paragraph)** Hello, here is some text without a meaning. This text should show what a printed text will look like at this place.  $\sin^2(\alpha) + \cos^2(\beta) = 1$ . If you read this text, you will get no information  $E = mc^2$ . Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look.  $\sqrt[n]{a} \cdot \sqrt[n]{b} = \sqrt[n]{ab}$ . This text should contain all letters of the alphabet and it should be written in of the original language.  $\frac{\sqrt[n]{a}}{\sqrt[n]{b}} = \sqrt[n]{\frac{a}{b}}$ . There is no need for special contents, but the length of words should match the language.  $a \sqrt[n]{b} = \sqrt[n]{a^n b}$ .

## 3.2 Lists

### 3.2.1 Example for list (itemize)

- First item in a list
- Second item in a list
- Third item in a list
- Fourth item in a list
- Fifth item in a list

### Example for list (4\*itemize)

- First item in a list
  - First item in a list
    - \* First item in a list
      - First item in a list

- Second item in a list
- \* Second item in a list
- Second item in a list
- Second item in a list

### 3.2.2 Example for list (enumerate)

1. First item in a list
2. Second item in a list
3. Third item in a list
4. Fourth item in a list
5. Fifth item in a list

### Example for list (4\*enumerate)

1. First item in a list
  - a) First item in a list
    - i. First item in a list
      - A. First item in a list
      - B. Second item in a list
    - ii. Second item in a list
  - b) Second item in a list
2. Second item in a list

### 3.2.3 Example for list (description)

**First** item in a list

**Second** item in a list

**Third** item in a list

**Fourth** item in a list

**Fifth** item in a list

**Example for list (4\*description)**

**First** item in a list

**First** item in a list

**First** item in a list

**First** item in a list

**Second** item in a list

**Second** item in a list

**Second** item in a list

**Second** item in a list

## **4 Conclusion and Outlook**

### **Outlook**

All links were last followed on March 17, 2018.

### **Declaration**

I hereby declare that the work presented in this thesis is entirely my own and that I did not use any other sources and references than the listed ones. I have marked all direct or indirect statements from other sources contained therein as quotations. Neither this work nor significant parts of it were part of another examination procedure. I have not published this work in whole or in part before. The electronic copy is consistent with all submitted copies.
